Answer 11 of 12 · Question 4 part b · 6 marks

2025 JUN · Paper 01 (regional R) · extract 3 of 6 · find part b in this mark scheme extract

Question Number	Evaluate the impact on *CCT* of an increase in the Chinese interest rate. You should use the information provided as well as your own knowledge of business. **Indicative content**	Mark
4 (c)	**AO1 = 3 marks AO2 = 3 marks** **AO3 = 3 marks AO4 = 3 marks** **AO1** • The cost of borrowing money • The rate of interest charged by the banks **AO2** • If *CCT* want to take out a loan to cover the cost of buying electric bicycles it will be more expensive if interest rates increase • People living in China will have to pay more for borrowing money and may have less disposable income to spend on touring the country **AO3** • Leading to an increase in fixed costs. This means more revenue will be required to be able to reach the break-even point • This could lead to a reduction in the demand for the bicycle tours lowering the revenue for *CCT* and increasing the risk of business failure **AO4** • However, if *CCT* strongly believe that taking out a loan will help them to expand then it might be worth taking the risk as the additional revenue can be used to cover the higher interest rates. • However, an increase in interest rates in China may not impact the foreign tourists that visit the country, and therefore this increase in rates may have little impact on the demand for *CCT*'s bicycle tours	**(12)**

Answer 12 of 12 · Question 4 part c · 12 marks

2019 JUN · Paper 01 (regional R) · extract 3 of 4 · find part c in this mark scheme extract

Question Number	Indicative content	Mark
4 (c)	**AO1 = 3 marks AO2 = 3 marks AO3 = 3 marks AO4 = 3 marks** **AO1** • Social media can be used to gain a wider target market. • E-newsletters can keep customers up to date with new products. **AO2** • *Lavender* could target a particular audience based on their likes of food to advertise directly to. • *Lavender* could get the email addresses of its customers or complete questionnaires. **AO3** • Therefore, using technology in promotion *Lavender* can personalise the information to the customer based on what they have searched for on the internet or what they have purchased previously from the bakery. • Therefore, they can reach out to current customers and encourage them to repeat purchase or to try out its other outlets or different recipes. **AO4** • However, *Lavender* would need to have employees with the necessary technological skills in order to use this as a method of promotion. Some people ignore emails or banners on websites so may not pay attention to the promotion. Also it could be difficult to reach the new customers in the new areas as they do not know who they are yet. • However, a lot of time might be spent using technology but some people may prefer traditional methods such as leaflets inside the bakery. When handing these out to customers directly you are giving more of a personalised service and you get the chance to speak to them face to face to gain feedback.	**(12)**
