Practice workbook · Total revenue or total pay: rate times quantity

Multiplying a unit price or pay rate by a quantity (items, months, hours, employees) to find total revenue or total remuneration.

4 question parts: 1 worked-example retry and 3 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

1 *Saha* is a small business in Türkiye (formerly known as Turkey) that opened in 2020 with 15 employees. It designs and manufactures robots which are used in hospitals, hotels and restaurants. In hospitals its robots are used to move medical supplies between departments. In hotels and restaurants, the robots are used to welcome customers as they arrive and deliver food and drinks to hotel rooms and restaurant tables. *Saha* provides a seven day a week customer service for all businesses buying its robots.

Many new businesses are entering the global robot market and are competing for market share. Competitors in Türkiye include *NIO, Zoox* and *Vention*.

Saha has ambitious growth plans and has started to design robots that will be used in the home to help people with cleaning, shopping, security and entertainment. It aims to become a multinational business within five years to manufacture robots in all continents of the world.

(a) (i) Which **one** of the following is a financial method used to motivate employees?

Select **one** answer. (1)
